

Piping Design Technology Preview (build #23)  
November 6, 2009

=====  
Notice to Autodesk Customers  
=====

In a continuing effort to provide high quality products, Autodesk has released Piping Design Technology Preview. This README file highlights how to install the software and known issues.

=====  
CONTENTS  
=====

- Installation Instructions
- Summary of known issues in this release
- Package download information

=====  
INSTALLATION INSTRUCTIONS  
=====

(1) Download the Piping Design Technology Preview file "PipingDesignExtender.zip"

\* You must have Administrator privileges on your local machine to install Piping Design Technology Preview.

(2) Double-click on the downloaded file to start the install. You will also have a progress meter on your screen while the setup program is updating the files on your system. Click [Finish] when done.

\* If Piping Design Technology Preview has been successfully installed, you will see a new desktop icon named "Piping Design Technology Preview"

\*\* The size of Piping Design Technology Preview is approximately 70 MB. You must have a minimum of 120 MB of free disk space on the drive where your temporary files are directed for the installation to complete successfully.

-----

INSTALLATION / UNINSTALLATION

=====

- To remove the Piping Design Technology Preview, locate the icon named "Piping Design Technology Preview" in Add or Remove Program (XP) / Uninstall or change a program (Vista) in Windows Control Panel
- Piping Design Technology Preview will cease to operate after June 30, 2010.
- If you uninstall an Algor Simulation product, Piping Design Technology Preview will not function properly. In order to restore functionality, go to the Piping Design Technology Preview installation folder and double-click the file regall.bat. You must have Administrator privileges on your local machine to perform this operation. A command prompt window will appear and will close on its own. Once the window closes, start Piping Design Technology Preview. The functionality will be restored.

GLOBALIZATION

=====

- Piping Design Technology Preview will display all labels and text in English.

We want to thank all our customers who identified these issues and reported them to us. These reports give us the opportunity to improve the product and provide you, our customers, with the best solution in mechanical design. Autodesk would also like to take this opportunity to thank you for your continued business and for the feedback regarding the content of this update release.

Thank you!

Respectfully,  
Autodesk Product Team
